Module 0, Quiz 0B: Question Ideas

Use with: **Module 0 Read 0** — especially “Looking Ahead: Research Questions”

You are practicing **Step 1** of the statistical process before Project 1. Submit three possible research questions you would like to investigate. They do not need to be perfect yet; choose questions you **actually care about** answering.

For the third question, try a **comparison between two groups** (for example, people who do vs do not do something).

Prompt 1

Write your first research question in a complete sentence. Be specific enough to imagine collecting data.

Prompt 2

Write a second, different research question about something you care about.

Prompt 3

Write a third research question that **compares two groups**.
